Making A Difference

We want to have a solid basis from which to work. What is our premise? There is within you an Intelligence that you may call upon, utilize, and experience. That Intelligence is the Presence of God, living in you, as you. Have confidence in this Intelligence. Believe that It is there just for you and recognize that no matter what life brings you don't have to become something to have Its creative power at your disposal. God is a present Reality and you know it.

Just as you are, this very mo-

ment, no matter what has come before, you can make your life into what you want it to be. You can reinvent your personality, your character, your job, your love life, and your finances, just by becoming aware that God in you is what you are, and then by thinking in a new and better way about everything.

Let no one and nothing inhibit you. Call upon the Presence, utilize Its Creative Power and experience the breadth and depth of Its potential in you.

Invisible or not, you know It is there — you can feel It. Now do something about it.

Ernestly Speaking . . .

The Law of Mental Equivalents should never be overlooked, for It is the Law which decides how much of this infinite thing we are to experience. We cannot experience more than we can accept, but we can expect more than we have been experiencing. If we are willing to start from where we are today, creating a little bigger, broader, and better mental equivalent than we had yesterday, we shall progressively advance.

I AM HEALTHY

There is only One Mind. That Mind creates me out of Itself to express Its vitality on the physical plane. I behold my body as the perfect vehicle to express and experience my innate wholeness.

Every part of my physical being is vibrant with Divine Energy. I am free from negative beliefs and destructive emotions. Good and only good floods my consciousness and Divine Life flows through me, dissolving any and all impurities.

I embody and express healthy ideas of love, joy and peace. The action of every atom responds to my constructive use of the One Intelligence, renewing and revitalizing my body according to its pattern of perfection. Every organ performs its function according to its original, perfect prototype.

I maintain balance in every area. My thinking, my emotions, my beliefs and my activities all emanate from my consciousness of Divine Health. All is forever well with me.

Knowing Consciousness

KATHLEEN DUNNE

*"Wisdom is the principle thing; therefore get wisdom
and in all your getting, get understanding."*

— Prov. 4:13

Have you ever felt, in moments of discouragement, that your consciousness was too far gone to fix? Or your belief in lack was too deeply imbedded from childhood to change? Or developing a consciousness of success was not possible in this lifetime for you?

Consider this: Your God consciousness is complete in you right now. You are not developing the Mind of God, you are the Mind of God individualized. You do not need to change it, or add anything to it because it is perfect in you exactly the way it is.

Since our mind is one with God Mind, then what is it we need to change? What are we developing?

We are changing our understanding and our perspective of life from the self of us that sees limitation. We are developing our awareness of our true nature by getting rid of any belief that contradicts it. And we do this by means of continual Spiritual Mind Treatment.

We must treat daily for an awareness of the perfect consciousness of God that exists at the center of our being now.

In truth, your consciousness never needs fixing — and your consciousness of success is not only possible, but established as complete in every way, right now. There is nothing to change, nothing to develop, only something to know.

Lessons of Truth

Rev. Marian G. Moon

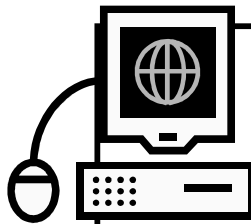

THE POWER OF THOUGHT

What is spiritual power? It is energy with tremendous potency. This energy force is what causes things to happen. It is universally present everywhere and in every person.

Its potential is without limit and each of us possesses enough of it to accomplish whatever we require for our happiness and success. Of course, it is the power of our own thought capable of manifesting our desires. Whatever we can conceive of and believe possible can be realized through right creative thinking.

How we use this power is up to

us, for as Dr. Holmes states, "it works for us by working through us." Each of us activates it in our lives by the kind of thinking we indulge in. Definite and specific mental treatment always gives us a perfect correspondent in our experience. Since no one can do our thinking for us we must be clear in our intention about what we want to experience. This power in each of us is more than sufficient to realize any good we desire. Since each of us is potentially capable of using this power we should never feel in lack for anything.

THE EFFECTIVE USE OF POWER

The greatest power we have at our disposal is the power of our own mind. Power is of no value unless it is dependable. It works on our behalf when we determine how we want it to affect our lives.

Our use of power is something we bring to a situation in order to make something greater out of it. The way to use the power of your mind is to take absolute responsibility for realizing the best you can conceive of for yourself. Our effective use of our power can prosper us in every area of our lives. We become in command of our lives by using our power in creative ways.

This class is open to everyone. Come and find out how to be more effective in satisfying yourself and using your power in creative ways.

FUNNY YOU SHOULD ASK . . .

***It seems as if things are getting worse,
not better. What should I do?***

It's not so much what you should do. It's what you should think! Things get better or worse because of what we think.

If things are getting worse, use the power of your mind to think thoughts which make things get better. Make the issue that simple. Refuse to look for what's wrong with you, or with life. You individualize God, therefore nothing is wrong with you, and life is God in action — therefore, there is nothing wrong with life.

The entire field of metaphysics reveals that our challenge is to think at the level of the way we want things to be and not at the level of the way things are. Stop thinking at the level of things going wrong and start thinking at the level of things going right. Life becomes to you that which you think of life as being. Think of your life as an expression of all that is Good, Right and Wonderful and let the Principle of Mind transform your thinking into your experience. Affirm that things are getting better because you are thinking what you ought to be thinking.
